Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7 February 2005 has been entered.

Status of Claims

Claims 36-40, 42 and 43 remain pending and are again presented for examination on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 36-40, 42 and 43 are rejected under 35 U.S.C. 102(e) as being anticipated by Nonaka et al. (hereinafter Nonaka), US 2003/0046238 A1.

As per the following claims, Nonaka discloses:

36. A method of revoking a host device comprising:

- receiving at a storage engine a certificate from the host device, the certificate containing a digital signature (§435);
- authenticating the digital signature (§22-28, 54-66; figures 60, 61 and associated text);
- receiving at the storage engine a file request from the host device, the file request being directed to a file stored on a storage medium accessible to the storage engine (§435, 671-675);
- reading a revocation list associated with the file from the storage medium, the revocation file containing at least one rule, the at least one rule associating data in the revocation file with data in the certificate (§435, 671-675;
- applying the at least one rule on the data in the revocation file and the associated data in the certificate (§247); and
- if the application of the at least one rule provides a failing result, denying the file request (§671-675; figures 60-61).

37. The method of claim 36, wherein the at least one rule comprises a plurality of rules (§247, 857, 1085-1087).

38. The method of claim 36, wherein the storage medium is an optical disk (§221).

Claims 41 and 42 are directed to a storage engine of the above method claims and are therefore rejected as above.

Examiner has pointed out particular references contained in the prior arts of record in the body of this action for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested from the applicant, in preparing the response, to consider fully the entire references as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior arts or disclosed by the examiner.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley B. Bayat whose telephone number is 571-272-6704. The examiner can normally be reached on Tuesday-Friday 8am-6: 30pm.
